FIVE DISCIPLINES · TWO BANDS · 80 UNITS · 240 LESSONS

FISLI Scope and Sequence, Level One

The order is the point. Students meet the Prophet ﷺ before they study belief, study belief before they study how the Qurʾān was kept, learn how ḥadīth is weighed before they learn formal logic, and arrive at Manṭiq last, where they discover they have been reasoning all along. Each unit has three lessons (Read Reflect Discuss Write Assess), a unit overview, objectives, materials, Qurʾānic anchors, a classical scholar spotlight, an assessment with answer key, and a glossary. Sources are named on the page where they are used.
